

Faculty of Information Engineering, Informatics and Statistics
ACADEMIC YEAR 2024-2025
Call for applications to the Honours Programme for the Degree programmes
indicated below:

<u>Bachelor's Degrees</u>
L-8 Information Engineering (Latina)
L-8 Electronics Engineering
L-8 Computer and System Engineering
L-31 Applied Computer Science and Artificial Intelligence
L-31 Informatics
L-31 Informatics – interuniversity with Unitelma Sapienza University of Rome, online University
L-41 Statistics, Economics and Society / Statistics, Economics, Finance and Insurance / Management Statistics
<u>Master's Degrees</u>
LM-18 Computer Science
LM-25 Control Engineering
LM-27 Communication Engineering
LM-29 Electronics Engineering
LM-31 Management Engineering
LM-32 Artificial Intelligence and Robotics
LM-32 Engineering in Computer Science
LM-66 Cybersecurity
LM-82 Statistical methods and applications
LM-83 Actuarial and Financial Sciences
LM- DATA Data Science

THE DEAN

HAVING REGARD TO	The Ministerial Decree 22 October 2004, no.270 D;
HAVING REGARD TO	The general Regulations on Degree Programmes Honours Programmes, issued with the D.R. no. 2345/2020 24 September 2020;
HAVING REGARD TO	The resolution of the Board of Directors no. 244/224, July 18 th 2024;
HAVING REGARD TO	The resolution of the Faculty Committee November 18 th 2024;

DECREES

The publication of the Call for applications to the Honours Programme for the Academic Year 2024-2025 for the Degree programmes indicated below:

Bachelor's Degrees

- L-8 Information Engineering (Latina)
- L-8 Electronics Engineering
- L-8 Computer and System Engineering
- L-31 Applied Computer Science and Artificial Intelligence
- L-31 Informatics
- L-31 Informatics – interuniversity with Unitelma Sapienza University of Rome, online University
- L-41 Statistics, Economics and Society / Statistics, Economics, Finance and Insurance / Management Statistics

Master's Degrees

- LM-18 Computer Science
- LM-25 Control Engineering
- LM-27 Communication Engineering

LM-29 Electronics Engineering

LM-31 Management Engineering

LM-32 Artificial Intelligence and Robotics

LM-32 Engineering in Computer Science

LM-66 Cybersecurity

LM-82 Statistical methods and applications

LM-83 Actuarial and Financial Sciences

LM-DATA Data Science

1. Admission requirements, candidate selection criteria, application, available positions, publication of rankings

For the aforementioned Degree programmes, the admission requirements, candidate selection criteria, application, available position and the publication of rankings are specified in the following Forms.

L-8 Information Engineering (Latina)	
Admission requirements	Students enrolled in the A.Y. 2023-2024 for the first time in the first year who by November 30th, 2024 have acquired all the credits required at the first year with a GPA not lower than twenty-seven/out of thirty (27/30) .
Selection criteria	Selection based on qualifications assessment
Application	Students who meet the admission requirements must fill in Attachment A of the Call and submit it, together with the Transcript of Records (downloadable from InfoStud without tax stamp), to the Information Engineering Educational Affairs Office in Via Andrea Doria 3 – 04100 Latina by January 22nd 2025 .
Available positions	The available positions are 2 . Students enrolled in the School for Advanced Studies of Sapienza will be admitted as supernumerary students
Rankings	The ranking list with the eligible students will be published within February 12th, 2025 , on the University Transparency

	portal, on the Degree Programmes platform and the Faculty's website.
Additional information	The Honours programme involves extra educational activities in addition to those included in the Study Programme. The general outline of those activities involves the student a maximum commitment of 200 hours per year and does not consider the recognition of credits to the achievement of any Degree. Students admitted to the Honours programme perform theoretical and methodological activities, which involve in-depth study of a topic of interest in the Degree attended by the student and the drafting of a report relating to this analysis. The study may also require attendance to courses in Degree courses and PhD courses or in the School for Advanced Studies of Sapienza. Students who perform part of their curriculum in a Host University in the scope of the ERASMUS program can carry out, even partially, the activities planned in the Host Institution. Each student admitted to the Honours programme is assigned a tutor by the President of the Area Council, usually based on a suggestion from the student. All activities are carried out under the tutor's supervision.
Mid-term requirements	To continue the Honours Programme, students must pass all the exams of the programme year they are enrolled in with a GPA not lower than twenty-seven/out of thirty (27/30) .
Final requirements	To conclude the Honours Programme, students must have carried out all the activities of the Honours Programme and must have gained all the Credits (ECTS) of the Degree programme with a GPA not lower than twenty-seven/out of thirty (27/30) .
Contacts	For additional information, please contact the Educational Affairs Office of the Information Engineering Area Educational Board in Via Andrea Doria 3 - 04100 Latina, Ms Patrizia Tirocchi, available via e-mail at: patrizia.tirocchi@uniroma1.it Or consult the website: https://corsidilaurea.uniroma1.it/it/corso/2024/30846/home

L-8 Electronics Engineering

Admission requirements	Students enrolled in the A.Y. 2023-2024 for the first time in the first year who by November 30th, 2024 have acquired all the credits required at the first year with a GPA not lower than twenty-seven/out of thirty (27/30) .
-------------------------------	--

Selection criteria	Selection based on qualifications assessment
Application	Students who meet the admission requirements must fill in Attachment A of the Call and submit it, together with the Transcript of Records (downloadable from InfoStud without tax stamp), to [nicola.argenti@uniroma1.it] / or take it to <i>dep. DIET, via Eudossiana 18, Unicredit bank building, II floor room 211</i> , by January 22nd 2025
Available positions	The available positions are 6 . Students enrolled in the School for Advanced Studies of Sapienza will be admitted as supernumerary students
Rankings	The ranking list with the eligible students will be published within February 12th, 2025 , on the University Transparency portal, on the Degree Programmes platform and the Faculty's website.
Additional information	Students admitted to the Honours Programme will carry out, during the Academic Year 2024-2025 , the educational activities indicated below, for a total of almost 100 hours: - theoretical and methodological activities; - project work activities, as being involved in research and industrial development activities with the participation in internships, research and development projects, involvement in academic research projects participating in project work activities and laboratory experiments. Erasmus students who carry out part of their curriculum in an international University have access to the Honours Programme and may carry out part of their Honours Programme in the Host University. Each student admitted to the Honours Programme will be given a tutor.
Mid-term requirements	To continue the Honours Programme, students must pass all the exams of the programme year they are enrolled in with a GPA not lower than twenty-seven/out of thirty (27/30) .
Final requirements	To conclude the Honours Programme, students must have carried out all the activities of the Honours Programme and must have gained all the Credits (ECTS) of the Degree programme with a GPA not lower than twenty-seven/out of thirty (27/30) .
Contacts	For further information, please contact: [nicola.argenti@uniroma1.it] .

L-8 Computer and System Engineering	
Admission requirements	Students enrolled in the A.Y. 2023-2024 for the first time in the first year who by November 30th, 2024 have acquired all the credits required at the first year with a GPA not lower than twenty-seven/out of thirty (27/30) .
Selection criteria	Selection based on qualifications assessment
Application	Students who meet the admission requirements must fill in Attachment A of the Call and submit it, together with the Transcript of Records (downloadable from InfoStud without tax stamp), to segreteriaadidattica@diag.uniroma1.it specifying in the e-mail subject [application for the Honours Programme of the Computer and System Engineering] by January 22nd 2025 .
Available positions	The available positions are 12 . Students enrolled in the School for Advanced Studies of Sapienza will be admitted as supernumerary students
Rankings	The ranking list with the eligible students will be published within February 12th, 2025 , on the University Transparency portal, on the Degree Programmes platform and the Faculty's website.
Additional information	The Honours programme involves extra educational activities in addition to those included in the Study Programme. The general outline of those activities involves the student a maximum commitment of 200 hours per year and does not consider the recognition of credits to the achievement of any Degree. Students admitted to the Honours programme perform theoretical and methodological activities, which involve in-depth study of a topic of interest in the Degree attended by the student and the drafting of a report relating to this analysis. The study may also require attendance to courses in Degree courses and PhD courses or in the School for Advanced Studies of Sapienza. Students who perform part of their curriculum in a Host University in the scope of the ERASMUS program can carry out, even partially, the activities planned in the Host Institution. Each student admitted to the Honours programme is assigned a tutor by the President of the Area Council, usually based on a suggestion from the student. All activities are carried out under the tutor's supervision.
Mid-term requirements	At the end of the first year in the Honours Programme, the tutor will assess the student's activity. If students receive a negative evaluation, the Area Educational Board Coordinator may reject their admission to the following year of the Honours

	Programme. Furthermore, to continue the Honours Programme, students must pass all the exams of the programme year they are enrolled in with a GPA not lower than twenty-seven/out of thirty (27/30) .
Final requirements	To conclude the Honours Programme, students must have carried out all the activities of the Honours Programme and must have gained all the Credits (ECTS) of the Degree programme with a GPA not lower than twenty-seven/out of thirty (27/30) .
Contacts	For further information, please contact Ms Antonella Cancellieri at the Educational Affairs

L-31 Applied Computer Science and Artificial Intelligence	
Admission requirements	Students enrolled in the A.Y. 2023-2024 for the first time in the first year who by November 30th, 2024 have acquired all the credits required at the first year with a GPA not lower than twenty-seven/out of thirty (27/30) .
Selection criteria	Selection based on qualifications assessment
Application	Students who meet the admission requirements must fill in Attachment A of the Call and submit it, together with the Transcript of Records (downloadable from InfoStud without tax stamp) to be sent from the personal institutional e-mail to the following e-mail address segr.didattica@di.uniroma1.it by January 22nd 2025 specifying the email subject: “a.a. 24-25 Domanda Percorso di Eccellenza”
Available positions	The available positions are 10 . Students enrolled in the School for Advanced Studies of Sapienza will be admitted as supernumerary students
Rankings	The ranking list with the eligible students will be published within February 12th, 2025 , on the University Transparency portal, on the Degree Programmes platform and the Faculty's website.
Additional information	Following the application, each student will receive an e-mail from the Educational Affairs Office with the link of the on-line form to fill out with the purpose to collect the selected topics. The topics proposed by the Professors will be published on the Degree course page in the “Attendance” section: https://corsidilaurea.uniroma1.it/it/corso/2024/30786/home

	In addition to the topics proposed by the Professors, each student can propose a topic of their own interest, possibly agreeing it with a professor of the Department. To each student admitted to the Honours Programme, the Honours Programme Board, considering the preferences expressed in the completed form, will assign a teacher-tutor. All activities are carried out under the tutor's supervision.
Mid-term requirements	To continue the Honours Programme, students must pass all the exams of the programme year they are enrolled in with a GPA not lower than 24/out of 30 and have a GPA not lower than twenty-seven/out of thirty (27/30).
Final requirements	To conclude the Honours Programme, students must have carried out all the activities of the Honours Programme and must have gained all the Credits (ECTS) of the Degree programme with a GPA not lower than twenty-seven/out of thirty (27/30).
Contacts	For further information, please contact: Ms Alessandra Fremiotti, e-mail: fremiotti@di.uniroma1.it

L-31 Informatics	
Admission requirements	Students enrolled in the A.Y. 2023-2024 for the first time in the first year who by November 30th, 2024 have acquired all the credits required at the first year with a GPA not lower than twenty-seven/out of thirty (27/30).
Selection criteria	Selection based on qualifications assessment
Application	Students who meet the admission requirements must fill in Attachment A of the Call and submit it, together with the Transcript of Records (downloadable from InfoStud without tax stamp) to be sent from the personal institutional e-mail to be sent from the personal institutional e-mail to the following e-mail address segr.didattica@di.uniroma1.it by January 22nd 2025 specifying the email subject: “a.a. 24-25 Domanda Percorso di Eccellenza”
Available positions	The available positions are 6 . Students enrolled in the School for Advanced Studies of Sapienza will be admitted as supernumerary students
Rankings	The ranking list with the eligible students will be published within February 12th, 2025 , on the University Transparency

	portal, on the Degree Programmes platform and the Faculty's website.
Additional information	Following the application, each student will receive an e-mail from the Educational Affairs Office with the link of the on-line form to fill out with the purpose to collect the selected topics. The topics proposed by the Professors will be published on the Degree course page in the "Attendance" section: https://corsidilaurea.uniroma1.it/it/corso/2024/30786/home In addition to the topics proposed by the Professors, each student can propose a topic of their own interest, possibly agreeing it with a professor of the Department. To each student admitted to the Honours Programme, the Honours Programme Board, considering the preferences expressed in the completed form, will assign a teacher-tutor. All activities are carried out under the tutor's supervision.
Mid-term requirements	To continue the Honours Programme, students must pass all the exams of the programme year they are enrolled in with a GPA not lower 24/out of 30 and have a GPA not lower than twenty-seven/out of thirty (27/30).
Final requirements	To conclude the Honours Programme, students must have carried out all the activities of the Honours Programme and must have gained all the Credits (ECTS) of the Degree programme with a GPA not lower than twenty-seven/out of thirty (27/30).
Contacts	For further information, please contact: Ms Alessandra Fremiotti, e-mail: fremiotti@di.uniroma1.it

L-31 Informatics - interuniversity with Unitelma Sapienza University of Rome, online University	
Admission requirements	Students enrolled in the A.Y. 2023-2024 for the first time in the first year who by November 30th, 2024 have acquired all the credits required at the first year with a GPA not lower than twenty-seven/out of thirty (27/30).
Selection criteria	Selection based on qualifications assessment
Application	Students who meet the admission requirements must fill in Attachment A of the Call and submit it, together with the Transcript of Records (downloadable from InfoStud without tax stamp) to be sent from the personal institutional e-mail to

	the following e-mail address segr.didattica@di.uniroma1.it by January 22nd 2025 specifying the email subject: “a.a. 24-25 Domanda Percorso di Eccellenza”
Available positions	The available positions are 2 . Students enrolled in the School for Advanced Studies of Sapienza will be admitted as supernumerary students
Rankings	The ranking list with the eligible students will be published within February 12th, 2025 , on the University Transparency portal, on the Degree Programmes platform and the Faculty's website.
Additional information	Following the application, each student will receive an e-mail from the Educational Affairs Office with the link of the on-line form to fill out with the purpose to collect the selected topics. The topics proposed by the Professors will be published on the Degree course page in the “Attendance” section: https://corsidilaurea.uniroma1.it/it/corso/2024/30786/home In addition to the topics proposed by the Professors, each student can propose a topic of their own interest, possibly agreeing it with a professor of the Department. To each student admitted to the Honours Programme, the Honours Programme Board, considering the preferences expressed in the completed form, will assign a teacher-tutor. All activities are carried out under the tutor's supervision.
Mid-term requirements	To continue the Honours Programme, students must pass all the exams of the programme year they are enrolled in with a GPA not lower 24/out of 30 and have a GPA not lower than twenty-seven/out of thirty (27/30).
Final requirements	To conclude the Honours Programme, students must have carried out all the activities of the Honours Programme and must have gained all the Credits (ECTS) of the Degree programme with a GPA not lower than twenty-seven/out of thirty (27/30).
Contacts	For further information, please contact: Ms Alessandra Fremiotti, e-mail: fremiotti@di.uniroma1.it

L-41 Statistics, Economics and Society / Statistics, Economics, Finance and Insurance / Management Statistics	
Admission requirements	Students enrolled in the A.Y. 2023-2024 for the first time in the first year, to one of the L-41 Degrees, who by November 30th, 2024 have acquired all the credits required

	at the first year with a GPA not lower than twenty-seven/out of thirty (27/30) .
Selection criteria	Selection based on qualifications assessment
Application	Students who meet the admission requirements must fill in Attachment A of the Call and submit it, together with the Transcript of Records (downloadable from InfoStud without tax stamp) to the Statistics Student Affairs Office e-mail address didattica-dss@uniroma1.it , specifying in the e-mail subject "Candidatura percorso eccellenza CdL classe L-41", by January 22nd 2025 .
Available positions	The available positions are 18 . Students enrolled in the School for Advanced Studies of Sapienza will be admitted as supernumerary students
Rankings	The ranking list with the eligible students will be published within February 12th, 2025 , on the University Transparency portal, on the Degree Programmes platform and the Faculty's website.
Additional information	The Honours Programme aims to enhance the education of meritorious students interested in further studies and cultural integration of the foundation, core and related educational activities in the Statistics degree programme class. Students admitted to the Honours Programme will dedicate their time to educational activities additional to those regularly provided in the Degree Programme consisting of seminars (and internships) according to a study plan suggested by the Degree Programme. Students admitted to the Honours Programme are given a professor-tutor who cooperates in the activities' organisation, in part in agreement with students, making for a maximum total involvement of 200 hours per year.
Mid-term requirements	The activities carried out by each student admitted to the Honours Programme will be evaluated at the end of the Academic Year 2024-2025 by the Professor tutoring the student. The Programme Coordinator may reject the admission to the following year of the Honours Programme for students who obtain a negative evaluation. Furthermore, to be allowed to continue in their Honours Programme, students must have carried out all the activities of the Honours Programme, must have gained all the Credits (ECTS) of the second year of their Degree Programme and must have a GPA not lower than twenty-seven/out of thirty (27/30) .

Final requirements	To conclude the Honours Programme, students must have carried out all the activities of the Honours Programme and must have gained all the Credits (ECTS) of the Degree programme with a GPA not lower than twenty-seven/out of thirty (27/30) .
Contacts	For further information, please contact the Statistics Student Affairs Office at the e-mail address: didattica-dss@uniroma1.it

LM-18 Computer Science	
Admission requirements	Students enrolled in the A.Y. 2023-2024 for the first time in the first year who by November 30th, 2024 have acquired all the credits required at the first year with a GPA not lower than twenty-seven/out of thirty (27/30) .
Selection criteria	Selection based on qualifications assessment
Application	Students who meet the admission requirements must fill in Attachment A of the Call and submit it, together with the Transcript of Records (downloadable from InfoStud without tax stamp) to be sent from the personal institutional e-mail to the following e-mail address sagr.didattica@di.uniroma1.it by January 22nd 2025 specifying the email subject: “a.a. 24-25 Domanda Percorso di Eccellenza”
Available positions	The available positions are 6 . Students enrolled in the School for Advanced Studies of Sapienza will be admitted as supernumerary students
Rankings	The ranking list with the eligible students will be published within February 12th, 2025 , on the University Transparency portal, on the Degree Programmes platform and the Faculty’s website.
Additional information	Following the application, each student will receive an e-mail from the Educational Affairs Office with the link of the on-line form to fill out with the purpose to collect the selected topics. The topics proposed by the Professors will be published on the Degree course page in the “Attendance” section: https://corsidilaurea.uniroma1.it/it/corso/2024/30786/home In addition to the topics proposed by the Professors, each student can propose a topic of their own interest, possibly agreeing it with a professor of the Department. To each student admitted to the Honours Programme, the Honours Programme Board, considering the preferences expressed in the completed

	form, will assign a teacher-tutor. All activities are carried out under the tutor's supervision.
Final requirements	To conclude the Honours Programme, students must have carried out all the activities of the Honours Programme and must have gained all the Credits (ECTS) of the Degree programme with a GPA not lower than twenty-seven/out of thirty (27/30) .
Contacts	For further information, please contact: Ms Alessandra Fremiotti, e-mail: fremiotti@di.uniroma1.it

LM-25 Control engineering	
Admission requirements	Students enrolled in the A.Y. 2023-2024 for the first time in the first year who by November 30th, 2024 have acquired at least 42 credits with a GPA not lower than twenty-seven/out of thirty (27/30) .
Selection criteria	Selection based on qualifications assessment
Application	Students who meet the admission requirements must fill in Attachment A of the Call and submit it, together with the Transcript of Records (downloadable from InfoStud without tax stamp) to be sent from the personal institutional e-mail to the e-mail address segreteriaadidattica@diag.uniroma1.it specifying in the e-mail subject "application for the honours programme for CONTROL ENGINEERING", by January 22nd 2025 .
Available positions	The available positions are 6 . Students enrolled in the School for Advanced Studies of Sapienza will be admitted as supernumerary students
Rankings	The ranking list with the eligible students will be published within February 12th, 2025 , on the University Transparency portal, on the Degree Programmes platform and the Faculty's website.
Final requirements	To conclude the Honours Programme, students must have carried out all the activities of the Honours Programme and must have gained all the Credits (ECTS) of the Degree programme with a GPA not lower than twenty-seven/out of thirty (27/30) .
Contacts	For further information, please contact Ms Antonella Cancellieri of the Student Affairs Office.

LM-27 Communication Engineering	
Admission requirements	Students enrolled in the A.Y. 2023-2024 for the first time in the first year who by November 30th, 2024 have acquired all the credits required at the first year with a GPA not lower than twenty-seven/out of thirty (27/30) .
Selection criteria	Selection based on qualifications assessment
Application	Students who meet the admission requirements must fill in Attachment A of the Call and submit it, together with the Transcript of Records (downloadable from InfoStud without tax stamp) to the e-mail address [nicola.argenti@uniroma1.it] or take it to [DIET, via Eudossiana 18, Unicredit bank building, II floor room 211], by January 22nd 2025 .
Available positions	The available positions are 4 . Students enrolled in the School for Advanced Studies of Sapienza will be admitted as supernumerary students
Rankings	The ranking list with the eligible students will be published within February 12th, 2025 , on the University Transparency portal, on the Degree Programmes platform and the Faculty's website.
Additional information	Students admitted to the Honours Programme will dedicate their time to the educational activities below, making for a total of about 200 hours, and will be given a tutor: - theoretical and methodological activities (100 hours), as participation in a specialisation course or summer school; - project work activities (100 hours), as participation in internships in research and development projects, involvement in academic research projects and planning and experimental laboratory activities. Erasmus students who carry out part of their curriculum at an International University and have access to the Honours Programme may carry out part of their honours programme at the international University hosting them.
Final requirements	To conclude the Honours Programme, students must have carried out all the activities of the Honours Programme and must have gained all the Credits (ECTS) of the Degree programme with a GPA not lower than twenty-seven/out of thirty (27/30) .
Contacts	For further information please contact: [nicola.argenti@uniroma1.it].

LM-29 Electronics Engineering	
Admission requirements	Students enrolled in the A.Y. 2023-2024 for the first time in the first year who by November 30th, 2024 have acquired all the credits required at the first year with a GPA not lower than twenty-seven/out of thirty (27/30) .
Selection criteria	Selection based on qualifications assessment
Application	Students who meet the admission requirements must fill in Attachment A of the Call and submit it, together with the Transcript of Records (downloadable from InfoStud without tax stamp) to the e-mail address [<i>nicola.argenti@uniroma1.it</i>] or take it to [<i>DIET, via Eudossiana 18, Unicredit bank building, II floor room 211</i>], by January 22nd 2025 .
Available positions	The available positions are 6 . Students enrolled in the School for Advanced Studies of Sapienza will be admitted as supernumerary students
Rankings	The ranking list with the eligible students will be published within February 12th, 2025 , on the University Transparency portal, on the Degree Programmes platform and the Faculty's website.
Additional information	Students admitted to the Honours Programme will dedicate their time, during the A.Y. 2024/2025, to the educational activities below, making for a total of about 200 hours: - theoretical and methodological activities (100 hours), as participation in a specialisation course or summer school; - project work activities (100 hours), as participation in internships in research and development projects, involvement in academic research projects and planning and experimental laboratory activities. Erasmus students who carry out part of their curriculum at an International University and have access to the Honours Programme may carry out part of their honours programme at the international University hosting them. Every student admitted to the Honours Programme will be given a tutor.
Final requirements	To conclude the Honours Programme, students must have carried out all the activities of the Honours Programme and must have gained all the Credits (ECTS) of the Degree programme with a GPA not lower than twenty-seven/out of thirty (27/30) .
Contacts	For further information please contact: [<i>nicola.argenti@uniroma1.it</i>].

LM-31 Management Engineering	
Admission requirements	Students enrolled in the A.Y. 2023-2024 for the first time in the first year who by November 30th, 2024 have acquired at least 48 credits with a GPA not lower than 27,5/out of 30 .
Selection criteria	Selection based on qualifications assessment
Application	Students who meet the admission requirements must fill in Attachment A of the Call and submit it, together with the Transcript of Records (downloadable from InfoStud without tax stamp) to the e-mail address segreteriadidattica@diag.uniroma1.it (specifying in the e-mail subject: "Application for the Honours Programme of the MSc in Management Engineering") by January 22nd 2025 .
Available positions	The available positions are 15 . Students enrolled in the School for Advanced Studies of Sapienza will be admitted as supernumerary students
Rankings	The ranking list with the eligible students will be published within February 12th, 2025 , on the University Transparency portal, on the Degree Programmes platform and the website www.ingegneriagestionale.uniroma1.it
Additional information	The Honours Programme consists of educational activities additional to those regularly included in the degree programme, planned by the Area Educational Board, and these activities may consist of disciplinary and interdisciplinary in-depth analysis and seminars. Students admitted to the Honours Programme will carry out an in-depth study of the degree programme's core subjects and broaden their culture in the field through the analysis and discussion of relevant educational and methodological topics and the drafting of documents and projects. A class of studies will be established that will work under the guidance of a committee of tutoring professors, appointed annually by the Area Educational Board. The educational activities carried out by the students in their Honours Programme will be assessed by their tutoring professors. Students who receive a negative evaluation may be excluded from the Honours Programme by the Area Educational Board Coordinator.
Final requirements	To conclude their Honours Programme, students, along with having carried out all the activities of the honours programme, must have gained all the Credits (ECTS) of the degree programme within the regular duration of the programme and have a GPA not lower than 27,5/out of thirty (27,5/30) .

Contacts	For further information, please contact the Student Affairs Office of the Antonio Ruberti Department of Computer, Control and Management Engineering (DIAG) or consult the website www.ingegneriagestionale.uniroma1.it
-----------------	---

LM-32 Artificial Intelligence and Robotics	
Admission requirements	Students enrolled in the A.Y. 2023-2024 for the first time in the first year who by November 30th, 2024 have acquired at least 39 credits and have passed all the compulsory exams with a GPA not lower than twenty-seven/out of thirty (27/30) .
Selection criteria	Selection based on qualifications assessment
Application	Students who meet the admission requirements must fill in Attachment A of the Call and submit it, together with the Transcript of Records (downloadable from InfoStud without tax stamp) to the e-mail address segreteriaadidattica@diag.uniroma1.it (specifying in the e-mail subject: "Application for the Honours Programme of the MSc in AIRO") by January 22nd 2025 .
Available positions	The available positions are 8 . Students enrolled in the School for Advanced Studies of Sapienza will be admitted as supernumerary students
Rankings	The ranking list with the eligible students will be published within February 12th, 2025 , on the University Transparency portal, on the Degree Programmes platform and the Faculty's website.
Additional information	The Honours Programme consists of educational activities additional to those included in the student's degree programme. The overall time for educational activities entails a maximum of 200 hours of dedication per year and does not produce Credits that can be validated to attain other academic qualifications at Sapienza University of Rome. Students admitted to the Honours Programme will carry out theoretical and methodological activities that usually entail broadening the analysis of a subject of interest in the student's degree programme and the drafting of an essay relative to such in-depth analysis. Such in-depth analysis may require attending modules of other Sapienza University Degree Programmes, PhD Programmes, or the School for Advanced Studies. Honours Programme students who carry out a part of their curriculum at an international University with the ERASMUS

	project may carry out, partially as well, the activities available at the international university that is hosting them. Every student admitted to the Honours Programme is given a tutor by the Area Educational Board Coordinator, usually based on the student's suggestion. All the activities are carried out under the tutor's supervision.
Final requirements	To conclude the Honours Programme, students must have carried out all the activities of the Honours Programme and must have gained all the Credits (ECTS) of the Degree programme with a GPA not lower than twenty-seven/out of thirty (27/30) .
Contacts	For further information, please contact Ms Antonella Cancellieri at the Educational Affairs Office.

LM-32 Engineering in Computer Science	
Admission requirements	Students enrolled in the A.Y. 2023-2024 for the first time in the first year who by November 30th, 2024 have acquired all the credits required at the first year with a GPA not lower than twenty-seven/out of thirty (27/30) .
Selection criteria	Selection based on qualifications assessment
Application	Students who meet the admission requirements must fill in Attachment A of the Call and submit it, together with the Transcript of Records (downloadable from InfoStud without tax stamp) to the e-mail address segreteriaadidattica@diag.uniroma1.it , specifying in the e-mail subject [application for the Honours Programme of the MSc in ENG-CS] by January 22nd 2025 .
Available positions	The available positions are 8 . Students enrolled in the School for Advanced Studies of Sapienza will be admitted as supernumerary students
Rankings	The ranking list with the eligible students will be published within February 12th, 2025 , on the University Transparency portal, on the Degree Programmes platform and the Faculty's website.
Additional information	The Honours Programme consists of educational activities additional to those included in the student's degree programme. The overall time for educational activities entails a maximum of 200 hours of dedication per year and does not

	<p>produce Credits that can be validated to attain other academic qualifications at Sapienza University of Rome. Students admitted to the Honours Programme will carry out theoretical and methodological activities that usually entail broadening the analysis of a subject of interest in the student's degree programme and drafting an essay relative to such in-depth analysis. Such in-depth analysis may require attending modules of other Sapienza University Degree Programmes, PhD Programmes, or the School for Advanced Studies. Honours Programme students who carry out a part of their curriculum at an international University with the ERASMUS project may carry out, partially as well, the activities available at the international University that is hosting them.</p> <p>Every student admitted to the Honours Programme is given a tutor by the Area Educational Board Coordinator, usually based on the student's suggestion. All the activities are carried out under the tutor's supervision.</p>
Final requirements	To conclude the Honours Programme, students must have carried out all the activities of the Honours Programme and must have gained all the Credits (ECTS) of the Degree programme with a GPA not lower than twenty-seven/out of thirty (27/30).
Contacts	For further information, please contact Ms Antonella Cancellieri of the Student Affairs Office.

LM-66 Cybersecurity	
Admission requirements	Students enrolled in the A.Y. 2023-2024 for the first time in the first year who by November 30th, 2024 have acquired all the credits required at the first year with a GPA not lower than twenty-eight /out of thirty (28/30).
Selection criteria	Selection based on qualifications assessment
Application	Students who meet the admission requirements must fill in Attachment A of the Call and submit it, together with the Transcript of Records (downloadable from InfoStud without tax stamp) to be sent from the personal institutional e-mail to the following e-mail address segr.didattica@di.uniroma1.it by January 22nd 2025 . Specify the email subject: "a.a. 24-25 Domanda Percorso di eccellenza"
Available positions	The available positions are 5 .

	Students enrolled in the School for Advanced Studies of Sapienza will be admitted as supernumerary students

2. Qualifications assessment and rankings preparation

The applications submitted within the deadlines will be examined by a Committee appointed by the Degree Programme Board or the Educational Board. For each Degree Programme, the Committee will draft a ranking list of students who applied to the Honours Programme based on the exams taken and any other requirements indicated in the Honours Programme Regulations. In the case of candidates with the same score, the younger candidate shall prevail.

3. General structure of the Honours Programme

a) **Purposes and definition** – The Honours Programme aims to enhance the education of meritorious students interested in educational activities that broaden their knowledge and cultural integration and activities to approach the scientific research methodology.

b) **Activities** – The honours programme consists of educational activities that are additional to those included in the degree programme. Such activities are in part programmed by the Degree Programme Board or the Area Educational Board and include disciplinary and inter-disciplinary in-depth analysis, seminars and internships, and in part are arranged in agreement with each student, based on their cultural and scientific vocations.

The additional educational activities may also be chosen amongst the educational activities held by Sapienza's School for Advanced Studies for students who are not enrolled at the School for Advanced Studies.

All the educational activities provided for the Honours Programme involve students from a minimum of 100 hours to a maximum of 200 hours per year and do not entail the acquisition of credits that may be validated to attain other academic qualifications issued by Sapienza University of Rome.

A detailed description of the additional educational activities is given in the Regulations of each Honours Programme and in article 1 of the present call for applications.

c) **Final recognition** – At the same time of attainment of the academic qualification, the Degree Programme Board or the Area Educational Board certifies the completion of the Honours Programme for each student. The Student Affairs Office acquires such certification and registers the Honours Programme so that it becomes visible in the student's career certificate.

Together with this certificate, the University awards the student a prize equal to the amount of the tuition fees paid during the last year of the degree programme, net of the fixed all-inclusive tuition fee and the regional tax. Student Affairs Offices refund the amount paid by the student based on the certificate referred to in the aforementioned provision.

4. Person responsible for the administrative procedure and competent jurisdiction

Pursuant to articles 4, 5 and 6 of law 241/90 the person in charge of the administrative procedure is Ms Antonella Palombo (contact e-mail address antonella.palombo@uniroma1.it).

In case of disputes, the only competent jurisdiction is the Court of Rome.

This Call for applications is published in English and Italian. In the event of conflicting interpretations between the two versions (ITA and EN), the only applicable text is the Italian version.

**ATTACHMENT A**

ACADEMIC YEAR 2024-2025
Honours Programme Application Form
Faculty of Information Engineering, Computer Science and Statistics

The student must **complete** the present application form in its entirety and must attach the **list of exams taken** (downloadable from InfoStud without tax stamp). The application methods and deadlines are the ones indicated in the call for applications, for each degree programme.

The undersigned
